Going to the lab :

- The pedestrian access to the University is through the bridge that crosses the avenue du Pont de Bois (leave the metro, cross the roundabout and turn left, then right onto the bridge).
- After the bridge, cross the forum of the University and take the A4 entry. Take the stairs right in front of you (blue stairs) and climb two floors. Pass the door and head to the right and walk along the corridor. The laboratory is a little further down the hall.
